Personal Introduction & Motivation

1. **Tell me about yourself.**
   I'm a Cloud Engineer with [X] years of experience in cloud infrastructure, mainly on AWS and Azure. I've worked on automation, CI/CD, security hardening, and cost optimization. I enjoy solving complex technical problems and contributing to high-availability systems.

2. **Why did you choose cloud computing as a career?**
   I was fascinated by how scalable and cost-efficient cloud solutions are. The flexibility and innovation in cloud technologies inspired me to build a career where I can continuously learn and solve real-world business challenges.

3. **What motivates you at work?**
   Learning new technologies, solving challenges, and seeing my solutions make a positive impact on performance or efficiency keep me motivated. I also enjoy collaborating with teams and sharing knowledge.

4. **Why do you want to join Rubik's Business Solutions?**
   Rubik's is known for its innovative work and growth in cloud services. I'm excited about the opportunity to work on meaningful projects, grow with a skilled team, and contribute to your digital transformation initiatives.

5. **Where do you see yourself in 3–5 years?**
   I see myself growing into a lead or architect-level role, driving cloud strategy and mentoring junior engineers. I also plan to earn advanced certifications and contribute to process improvement.

Job Change & Expectations

6. **Why are you leaving your current job?**
   I'm looking for new challenges and a role where I can expand my technical skills further, especially in DevOps and multi-cloud environments. I believe Rubik's offers such opportunities.

7. **What kind of work environment are you looking for?**
   A collaborative and learning-focused environment where innovation is encouraged, feedback is valued, and employees are supported in their professional growth.

8. **What are your salary expectations?**
   Based on my skills and market research, I'm expecting a salary in the range of ₹[your

expected range] LPA. However, I'm flexible and open to negotiation based on the role and responsibilities.

9. **Are you open to relocation or hybrid/on-site work at our Hyderabad office?**
   Yes, I'm open to working from your Hyderabad office or in a hybrid model as per project needs.

10. **How soon can you join us? (Notice period)**
    I'm currently serving a notice period of [X] days, but I can try to negotiate an early release if required.

Behavioral & Soft Skills

11. **Tell me about a time you worked in a team—what role did you play?**
    In my previous role, I worked on a cloud migration project with a cross-functional team. I was responsible for setting up the infrastructure in AWS and coordinating with developers and security teams. I ensured clear communication and timely delivery of my components.

12. **How do you handle pressure or tight deadlines?**
    I prioritize tasks, break them into smaller manageable steps, and focus on delivering incrementally. I stay calm, communicate proactively, and ask for support when needed.

13. **Have you ever faced conflict with a teammate or manager? How did you resolve it?**
    Yes, once there was a disagreement about deployment timing. I suggested a quick sync-up to align expectations. After sharing each other's concerns, we agreed on a revised plan. It taught me the importance of listening and collaboration.

14. **How do you prioritize your tasks when managing multiple projects?**
    I assess urgency and impact, align with team goals, and use tools like JIRA or Trello to track progress. I also allocate buffer time for unexpected issues.

15. **What's your greatest strength and your biggest weakness?**
    Strength: I'm highly dependable and quick to learn new technologies.
    Weakness: I tend to be overly detail-oriented at times, but I've learned to balance perfection with practicality.

🔹 Company Fit & Attitude

16. **What do you know about our company and our services?**
    Rubik's Business Solutions specializes in cloud services, automation, DevOps, and digital transformation. I also read that you focus on innovative tech solutions and serve a variety of industries, which I find exciting.

17. **Why should we hire you for this role?**
    I bring hands-on cloud expertise, a problem-solving mindset, and a passion for learning. I'm confident I can contribute to your team's success and align well with your culture of innovation.

18. **What are your long-term career goals?**
    I aim to grow into a cloud solutions architect role, lead critical projects, and stay current with emerging cloud technologies while mentoring junior team members.

19. **Do you prefer working independently or as part of a team?**
    I'm comfortable with both. I enjoy independent problem-solving, but I also thrive in a collaborative environment where knowledge is shared and team goals are prioritized.

20. **Are you willing to upskill or learn new technologies if required?**
    Absolutely. I believe continuous learning is essential in tech, especially in cloud. I regularly invest time in hands-on labs and courses to stay up to date.
